PROFESSIONAL SUMMARY

Full-Stack Developer and Cybersecurity student with hands-on experience building modern web and mobile applications using React.js, Next.js, Node.js, Express.js, PostgreSQL, Prisma, and React Native. Experienced in REST APIs, database integration, responsive interfaces, and application deployment. Currently developing AI-powered applications and strengthening practical cybersecurity skills in Linux, network security, web security, security analysis, and incident-response fundamentals. Passionate about building reliable software and solving real-world problems through technology.

TECHNICAL SKILLS

Frontend	React.js, Next.js, React Native, Vue.js, JavaScript, HTML5, CSS3
Backend	Node.js, Express.js, REST APIs
Databases	PostgreSQL, Prisma, Firebase
AI & Automation	LLM Applications, AI Assistants, Prompt Engineering, AI APIs, AI Agents, Automation
Cybersecurity	Cybersecurity Fundamentals, Network Security, Web Security, Linux Security
Tools & Platforms	Git, GitHub, Linux, Ubuntu, API Integration, Deployment

PROFESSIONAL EXPERIENCE

Frontend Developer — Haytrix | January 2025 – Present

- Developed responsive web applications using React.js.
- Collaborated with UI/UX designers and backend developers.
- Worked within Agile development methodologies.

Backend Developer — Haytrix | August 2025 – September 2025

- Created and tested RESTful APIs using Python (Django).
- Performed API testing with Postman.
- Integrated backend services with frontend applications.

Full Stack Developer — WebSolLive | November 2025 – Present

- Developed mobile applications using React Native.
- Integrated APIs and Firebase services.
- Worked on application functionality and user experience.

FEATURED PROJECT

Nura AI — AI Assistant Platform

Technologies: Next.js, React, Node.js, Express.js, PostgreSQL, Prisma, React Native, LLM APIs

- Designed and developed an AI-powered conversational platform.
- Built application architecture across frontend, backend, database, and AI integration layers.
- Developed chat functionality for interacting with AI models.
- Implemented backend APIs and database architecture using Node.js, Express.js, PostgreSQL, and Prisma.
- Planned the platform for future AI-agent, automation, and third-party integrations.
- Developed the product with both web and mobile applications in mind.

CYBERSECURITY FOCUS

Currently building practical cybersecurity knowledge alongside software development, with focus on Linux security, network security, web security, security fundamentals, security analysis, and incident-response concepts. Developing hands-on labs and portfolio projects as part of ongoing cybersecurity studies.

EDUCATION

Bachelor of Science in Cybersecurity	Allama Iqbal Open University, Islamabad | 2026 – 2030
Intermediate in Computer Science (ICS)	BISE Bahawalpur | 2023 – 2025
Matriculation	BISE Bahawalpur | 2021 – 2023

CERTIFICATIONS & LANGUAGES

Frontend Development Certificate • Backend Development Certificate • Web Development Fundamentals

Languages: English, Urdu
